

# INSTALLATION

Renew flooring is designed to be installed as a “floating” floor. Expansion gaps must be allowed for the puerperal of the room as well as doorways. The planks should not be secured to the subfloor. Always undercut wood doorjamb. Check local building code for metal doorjamb. If they cannot be cut, then proper expansion must be maintained around the door jamb. Do not install cabinets or kitchen islands on top of the Renew flooring. Use care when installing wall moldings and transition strips to not fasten through the product.

Please see illustration below for the plank compositions.

# WHAT IS SPC FLOORING?

- Renew SPC vinyl flooring stands for stone plastic composite flooring.
- Renew flooring is an engineered luxury vinyl that combines limestone and stabilizers to create a extremely durable core.
- The ABA structure includes an additional two processing procedures which allows for the product to be more stable as well as feel more comfortable under the foot than traditional extruded SPC flooring.
- The 2G click system allows for quick and easy installation as well as easy maintenance and cleaning.
- Renew flooring is water and pet proof with superior scratch resistance and an excellent sound barrier (Damp proof sheeting advisable).
- Renew flooring does not expand or contract which makes it stable in areas with extreme temperature fluctuation.
- The realistic wood finish was created by top global artisans with high quality ink to produce flooring that won't discolour under sunlight.
- Renew flooring is eco friendly, manufactured from 100% virgin materials, non toxic, phthalate free and contains no formaldehyde.

## EASY CLEANING

Renew SPC flooring is easy to clean. Use a normal broom, damp mop or vacuum cleaner. No expensive cleaning agents needed.

## SOUND RESISTANT

Renew SPC flooring is sound resistant. This lends itself to better acoustics in your home or workplace.

## SCRATCH RESISTANT

Renew SPC flooring is scratch and indent resistant to chairs, cupboards and heels. Avoid dragging sharp edges across the floor.

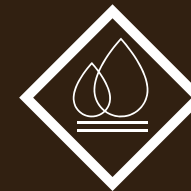

## EASY INSTALLATION

Renew SPC Flooring is easy to install and user friendly. These are floating floors that work with the 5Gi click system.

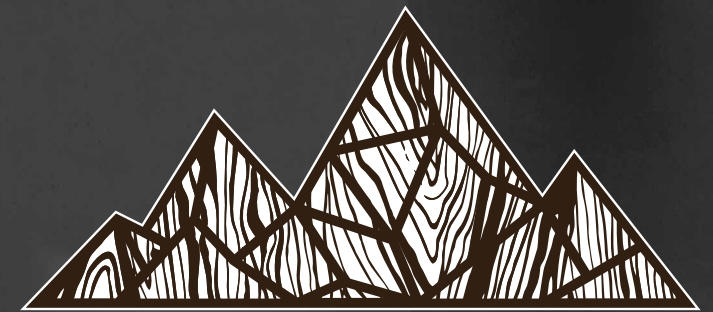

## PET PROOF

Renew SPC flooring is pet friendly and accommodate the whole family with luxury and functionality.

## WATER PROOF

Renew SPC flooring is water proof which makes it ideal for bathrooms and kitchens.
